- House Boats • Float Planes
- Kayaks • Canoes
- Rafts

**WORKS AS A
STERN ANCHOR**

**WORKS AS A
BOW ANCHOR**

THE COMPLETE KIT

The complete kit makes storing a breeze. The Kit includes:

- 1 Sandspike®
- 1 Float/Marker
- 1 Rust Proof Chain
- 1 Handy Carrying Bag

* Available in all three sizes.

This innovative anchoring system works great when you want to keep your watercraft secured but don't have anything to tie to. The Sandspike® can keep your watercraft on the beach or off the beach, depending on which you prefer. Simple to use, just insert in the beach angled away from your boat, and the Sandspike® acts as a temporary mooring bit. Once inserted, it looks good and it's much safer than sticks, rocks, or what ever else you find on the beach. **They work on all types of beaches**, except solid rock. (But, then what will?) Available in three sizes. Original size will hold up to a 24' boat, medium up to 32', and large up to 42' depending on conditions. Need more holding power? Call us! You can always go larger!
